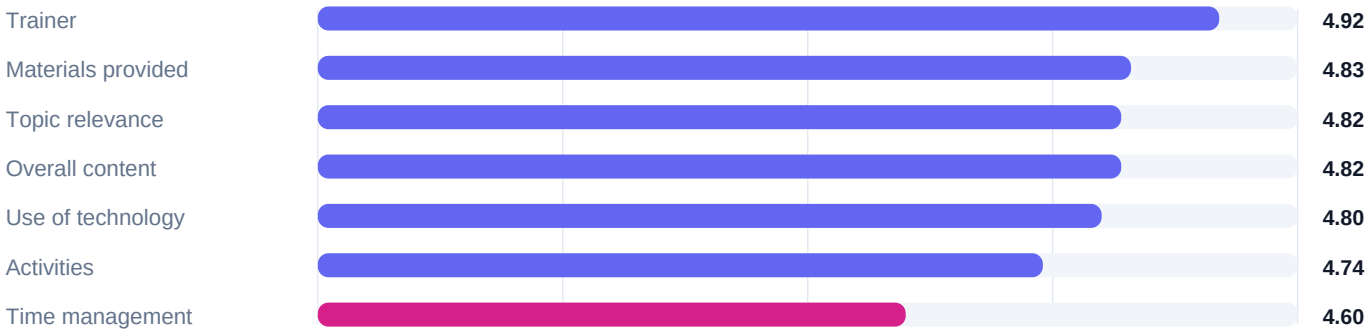
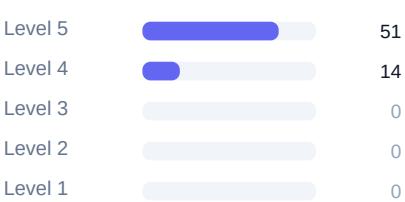
Workshop experience ratings

Average score out of 5; axis starts at 4.0 to show differences among high ratings.

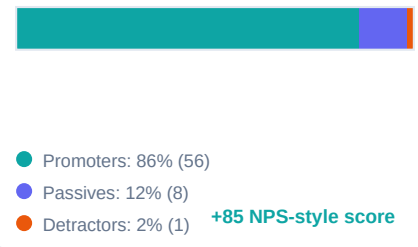


Main improvement signal: keep the format, but add more time, more individual exercises, and deeper examples.

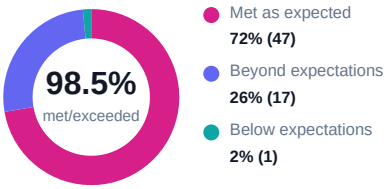
Overall satisfaction distribution



NPS-style distribution



Expectations met



What worked well

- Practical, hands-on format
- Clear structure and easy-to-follow flow
- Relevant AI / SDD / Windsurf topic

Improve next - lessons learned

- Add more time or split into multiple sessions
- Add more individual exercises and advanced examples
- Improve prerequisites/setup readiness
